

Message from the Governor General on the occasion of In-TAC's 8th National Virtual Career Expo

For Canada to remain the amazing country that we know—open, tolerant and progressive—we need everyone's contributions, their innovation and ingenuity, and their talent.

At the 8th National Virtual Career Expo, Canadians—those who have been here for years and those newly arrived—will discover paths that will lead to a better life for them and their families. These paths are forged by businesses who are creating opportunities in communities across this country, and who are adapting to an always evolving economy and to the needs of employees and consumers as a result of the COVID-19 pandemic.

As participants search for jobs from the comfort of their own homes, they are doing more than finding a job. They are adding the richness of their diversity and knowledge to our society, assuring Canada remains competitive and successful.

My very best wishes to everyone participating in the expo.

Her Excellency the Right Honourable Julie Payette
Governor General of Canada
